

## **Fall Three:**

**Paper Quilling Ornaments-** Quilling is an art form that involves the use of strips of paper that are rolled, shaped, and glued together to create decorative designs. These colorful, dynamic pieces make for beautiful ornaments to decorate around the holidays.

**Vintage Pie ceramics-** Come make delectable dishes of our favorite savory pies! Learn handbuilding techniques like coiling, slab, and pinching to create these sweet treats.

**Whimsical Storybook Illustrations-** Using classic illustrations from books such as Alice in wonderland and Where the Wild Things Are we will work to create our own unique whimsical images. This class is great for students who love to draw, as a big portion of the class will be spent on detailed pencil and ink work with some watercolors.

**Watercolor Holiday Cards-** Lets create beautiful cards your friends and family will adore! After painting different designs piece together your heartfelt cards using materials such as ribbons, scrapbook paper, gems and more.

**Postcard Illustrations-** As we tour around the world let's take time to make postcards to send home. Come paint whimsical images from coast to coast in watercolor, tempera paints, and oil pastels.

**The Peanuts-** Good Grief! Let's draw and paint Charlie Brown and his friends.

**Yarn Art-** Traditional yarn painting originated from Western Mexico using the bright colorful yarn to create charming paintings. Come Explore the texture and movement within landscapes through this unique medium.

**Clay Cookie Jars-** Create beautiful hand-built pottery for all the treats this winter! Students will be taught the coil method of construction in clay to create fine art functional jars with their own unique designs.

**Snow Globe Fun-** Students will have a blast painting and creating their own snow globes as inspiration. After they have designed their own globe they'll work on whimsical paintings in tempera, watercolor, and oil pastels.

**Animal Fun at the North Pole-** Whales, seals, penguins, and, of course, polar bears all live in the coldest places on earth. Enjoy drawing and painting the life that thrives on both ends of our planet!

**Mini Villages-** Using Miniature decorative villages create your own mini world! Students will start with creating a platform or location such as a mountain side, along train tracks, or woods. Next they will create a minimum of three different buildings that fit inside their village. Let this be a wonderful display around the holiday!
